

2020-2021 Tracy Lutheran Church Sunday School plans

At this time, TLC Sunday School children up to 6th grade will **not** be meeting in person on Sunday mornings.

As the schools return to learning, there is uncertainty as to which learning model the school will be in during these first few months. The school is currently in an in-person learning for elementary students and hybrid for high school students. If COVID cases increase in our area, the school will be switching to elementary hybrid learning. If this happens, elementary students will be using space at TLC – the same space our Sunday School students use. We feel it is best to limit the amount of additional interactions children are making while we return to learning.

However, putting our faith in God during this time of uncertainty is **EXTREMELY** important. It is important to us to continue to share God's stories with children, encourage them to trust in the Lord, and live like Jesus. We will be providing lessons, videos, and devotions to Sunday School families. We encourage families to spend time together in the word of God throughout the week. This past summer, we hosted our Vacation Bible School as a virtual family event. Parents really enjoyed the material, lessons, activities, and spending time with their children. So, for now, we will support our families in sharing God's love outside the walls of our church.

Families can find updates and material on the TLC Sunday School Facebook page. If you would like paper copies, please contact Missie Erbes.
